

Project Development –Delivery plan sprint-4

IoT Based Safety Gadget for Child Safety Monitoring & Notification

TEAM ID:PNT2022TMID42649

Creating Cloudant DB and integrating Node-Red with the Web UI

Create Cloudant DB:

The screenshot shows the Cloudant Databases interface. At the top, there's a 'Databases' header with a 'Database name' dropdown, a 'Create Database' button, and icons for JSON, a book, and a bell. Below this is a 'Your Databases' section with a table listing three databases:

Name	Size	# of Docs	Partitioned	Actions
child	2 bytes	1	No	[Icons for edit, lock, delete]
noderedwrfw20221117	34.3 KB	4	No	[Icons for edit, lock, delete]
sample	122.4 KB	618	No	[Icons for edit, lock, delete]

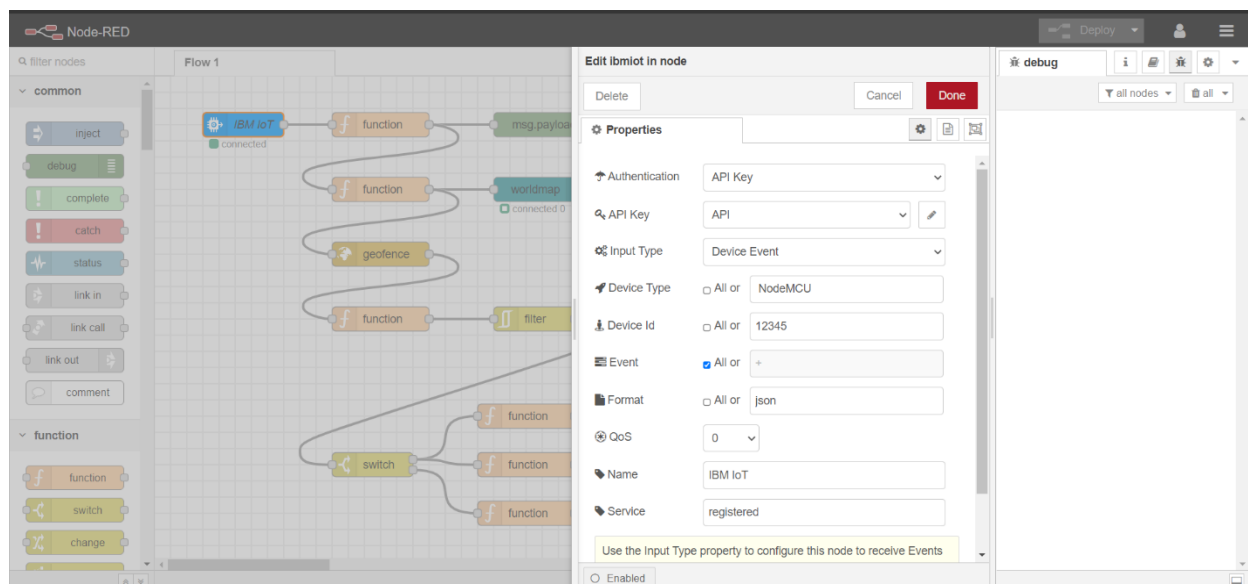

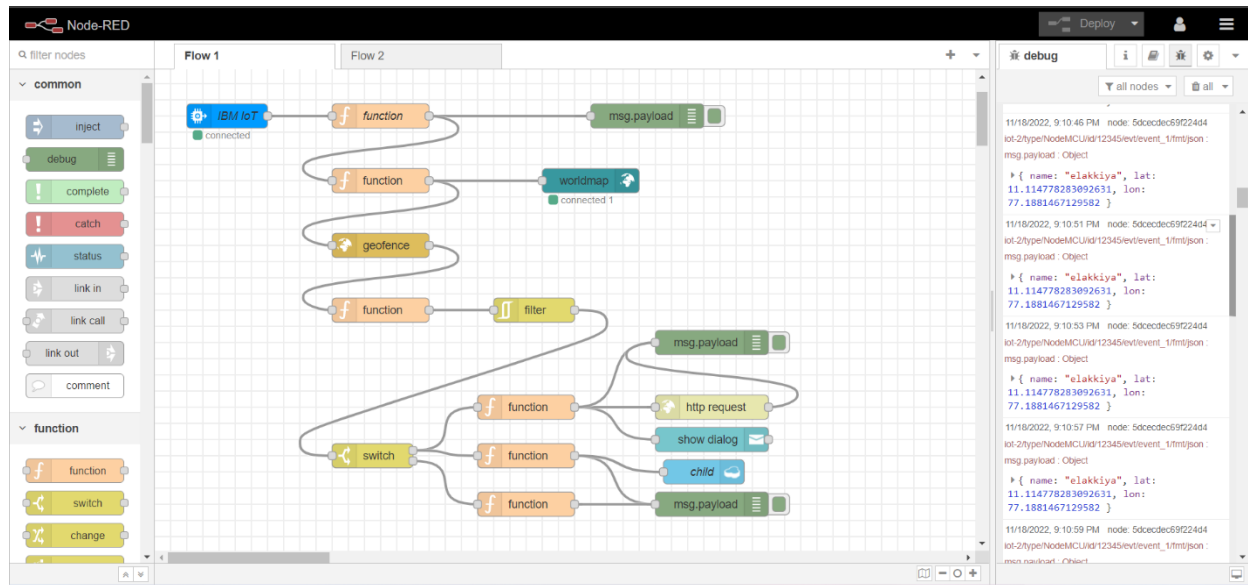

At the bottom right, it says 'Showing 1-3 of 3 databases. Databases per page: 20' with a dropdown and a page number '1'.

The screenshot shows the Cloudant 'sample' database view. The left sidebar has a 'sample' header and a menu with 'All Documents', 'Query', 'Permissions', 'Changes', and 'Design Documents'. The main area has a 'Document ID' dropdown, 'Options', 'JSON', and a bell icon. Below this is a 'Table' view of the documents:

id	key	value
06820968d4c6a3765d5cbc1a43020c82	06820968d4c6a3765d5cbc1a43020c82	{ "rev": "1-334f0b77c0beb7152648d5b3920..." }
